

Meet PEX

A Rental Bot

■ PEX – Rent-A-Bot Trading Model

Affordable. Automated. Full Profit Ownership.

◆ What is PEX?

PEX is TSG's **Rental Spot Trading Bot**, designed for users who want smart automation without sharing profits.

You pay a **fixed monthly rent**, receive a **specific number of trades**, and keep **100% of your earnings**.

◆ How PEX Works

Choose a Rental Plan

Select a monthly package with the required number of trades.

Connect Binance API

100% secure — trading only, *no withdrawal access*.

Select Strategy

Choose from built-in strategies or upload your own custom strategy.

Automated 24/7 Trading

Bot executes trades based on your selected strategy.

You Keep All Profits

No sharing, no hidden fees — **all profit is yours**.

◆ Key Features

Fixed Monthly Rent – predictable and affordable

Full Profit Ownership – you keep everything you earn

Advanced Trading Algorithms

Multiple Strategy Options

Easy Setup for Beginners

Secure & Non-Custodial

Transparent Trade Logs & Performance Monitoring

◆ User Responsibility

User is responsible for choosing the strategy (built-in or custom).

Trade results depend on user configuration and market conditions.

TSG provides a **high-performance bot**, but results vary as per strategy handling.

◆ Who Should Choose PEX?

PEX is perfect for:

- ✓ Beginners who want low-cost automation
- ✓ Users who want full profit ownership
- ✓ Traders who prefer fixed, manageable monthly costs
- ✓ Those who want control over strategy selection
